About Me

I am a driven and solution-oriented Full Stack Developer and B.Tech ECE student at IIIT Kottayam with hands-on experience in modern frontend and backend technologies. Skilled in building impactful web applications that solve real-world problems, with a focus on innovative solutions and collaborative work.

Education

Indian Institute of Information Technology Kottayam

Bachelor of Technology in Electronics and Communication Engineering

Kottayam, Kerala

Nov 2022 – May 2026

CGPA: 7.01/10

Technical Skills

Programming Languages: Java, C/C++, Python, MATLAB

Web Technologies: HTML, CSS, JavaScript, React.js, React Native, Vue.js

Backend Frameworks: Node.js, Express.js

Styling Frameworks: Bootstrap, TailwindCSS

Database: SQL, MongoDB, Firebase

APIs: RESTful APIs, Fetch API, OpenAI API

Developer Tools Platforms: VS Code, Linux, Heroku, GitHub, Vercel

Relevant Coursework: Data Structures, Computer Network, Operating System, Database Management Systems, Artificial Intelligence, Computer Organization, Machine Learning

Experience

Site Guru | Full stack developer

April 2025 – Present

- Collaborating with clients to understand their requirements and translating them into technical solutions.
- Implementing Vuetify for responsive and visually appealing UI components.
- Building and managing server-side logic using Node.js.
- Debugging and troubleshooting to ensure functionality across environments.
- Working with SQL databases for data storage, query optimization, and indexing.

Projects

QuickBite | *React.js, Tailwind CSS, Node.js, MongoDB, Express.js, Real-time Tracking*

Aug 2024 – Nov 2024

- * Built a scalable backend leveraging MongoDB to manage restaurant, order, and user-related data.
- * Created a full-stack delivery platform featuring real-time tracking and user authentication.
- * Designed a responsive interface with Tailwind CSS, enhancing engagement by **35%**.
- * Improved API performance and reduced response times by **30%**, enabling seamless order processing with an average response time.

Expense Management System | *React.js, Bootstrap, Node.js, Express.js, MongoDB*

Oct 2023 – Jan 2024

- * Developed a comprehensive web application for managing personal and business expenses, providing users with a clear overview of their financial health.
- * Integrated interactive charts using Chart.js to visualize spending patterns, boosting user engagement by **40%**.
- * Implemented dynamic expense categorization and filtering, allowing users to track their spending habits with ease and increasing user satisfaction by **30%**.
- * Optimized the website for performance and responsiveness, ensuring compatibility across various devices and browsers.

AskIQ | *ReactJs, Tailwindcss, Gemini Api*

July 2023 – Aug 2023

- * Developed and maintained a modern AI-powered web application using React and Vite, enabling real-time interaction with generative AI models.
 - * Optimized API integration and state management, resulting in a smoother user experience and a **30%** reduction in average response latency.
 - * Designed and implemented a responsive and accessible UI using Tailwind CSS, enhancing usability across devices and increasing average session duration by **25%**.
 - * Improved user authentication and onboarding flows, leading to a **20%** increase in successful sign-ups and user retention.
- correct this

Achievements

- Solved 100+ problems on LeetCode
- Project selected in Internal Hackathon of SIH (SchemeHub India)

Certificates

- **Hackoona Matata Development Contest** | IIIT Kottayam
